PROFESSIONAL SUMMARY

Motivated PHP Laravel Full Stack Developer with strong knowledge of PHP, Laravel, MySQL, HTML5, CSS3, JavaScript, Bootstrap, and Tailwind CSS. Skilled in developing responsive and database-driven web applications using MVC Architecture, Eloquent ORM, RESTful Routing, and Server-Side Validation. Hands-on experience building academic and personal projects with a focus on clean code, secure development practices, and scalable web solutions

TECHNICAL SKILLS

- Languages:** PHP, JavaScript, HTML5, CSS3, XML
- Frameworks & Libraries:** Laravel, Bootstrap, Tailwind CSS, AJAX
- Backend Technologies:** Core PHP, RESTful API Development, SOAP API, MVC Architecture, Authentication & Authorization, Role-Based Access Control (RBAC), Session Management, Server-Side Scripting, Object-Oriented Programming (OOP), Routing, Blade Templating, Migrations, Eloquent ORM, Middleware, Server-Side Validation
- Database:** MySQL, Database Design, Database Management, Database Optimization
- Web Development:** Full Stack Web Development, Responsive Web Design, Dynamic UI Development, API Integration
- Security & Validation:** Secure Coding Practices, Form Validation, Data Validation, Input Sanitization, SQL Injection Prevention, Password Hashing, CSRF Protection
- Tools & Platforms:** Git, GitHub, Composer, XAMPP, VS Code

PROFESSIONAL SKILLS

- Strong problem-solving and analytical thinking abilities
- Fast learner with adaptability to new technologies
- Effective communication and teamwork skills
- Ability to develop clean, maintainable, and scalable code
- Self-motivated with strong attention to detail

EDUCATION

- Post Graduate Diploma in Computer Application (PGDCA)**
January 2026
- Bachelor of Arts (BA) in History**
2021-2024

PROJECT

Student Management System | Laravel 12, PHP, MySQL, Bootstrap

[GitHub link](#)

Tech Stack: Laravel, PHP, MySQL, Bootstrap, SCSS, JavaScript

- Developed a responsive Student Management System using Laravel, PHP, MySQL, Bootstrap, and JavaScript
- Built features for student registration, profile management, record updates, and data retrieval with a structured database design.
- Implemented server-side validation, error handling, CSRF protection, and data integrity checks to ensure secure and reliable application performance.
- Utilized Laravel Eloquent ORM, RESTful Routing, Route Model Binding, MVC Architecture, and OOP principles to develop clean, maintainable, and scalable code.
- Integrated pagination and user-friendly interfaces to improve data management efficiency and user experience.
- Followed modern web development practices using Git, GitHub, and Laravel best practices

Full Stack Authentication System with Secure Login & Role Management

[GitHub link](#)

Tech Stack: PHP, MySQL, HTML5, CSS3, JavaScript

- Developed a secure authentication system with user registration, login, password hashing, and session management
- Implemented Role-Based Access Control (RBAC) for admin and user authorization
- Built responsive frontend interfaces integrated with backend validation and database operations
- Developed admin dashboard for centralized user management and dynamic data handling
- Applied secure coding practices including SQL injection prevention, input validation, and data sanitization
- Optimized MySQL database structure for efficient data processing and application performance
